- any interpretation or pronouncement by the MAS or any relevant authority that provides for a position with respect to such relevant requirements issued by the MAS that differs from the previously generally accepted position in relation to similar transactions or which differs from any specific written statements made by any authority regarding the qualification of the Preference Shares as Tier 1 capital securities of DBS Bank or to the recognition of the Preference Shares as capital for calculating the Tier 1 and total capital adequacy ratios of DBS Bank, in each case on a consolidated or unconsolidated basis,

which change or amendment,

- (1) (subject to (2) below) becomes, or would become, effective on or after the Issue Date; or
- (2) in the case of a change or proposed change to the relevant requirements issued by the MAS, if such change is issued or is expected to be issued by the MAS, on or after the Issue Date,

the Preference Shares, in whole or in part, would not qualify as Tier 1 capital securities of DBS Bank (excluding, for the avoidance of doubt, non-qualification solely by virtue of DBS Bank already having, or coming to have, on issue securities with an aggregate principal amount up to or in excess of the limit of Tier 1 capital securities permitted pursuant to the relevant legislation and statutory guidelines in force as at the Issue Date).

Tax Event means that as a result of (1) any change in, or amendment to, any law or regulation of Singapore or any political subdivision or any authority thereof or therein having power to tax or (2) any change in the general application or official interpretation of any law or regulation by any relevant body in Singapore, in each case after the Issue Date, payments to Holders with respect to the Preference Shares would be subject to deduction or withholding for or on account of tax or would give rise to any obligation of the Issuer to account for any tax in Singapore, and such obligation cannot be avoided by the Issuer, as the case may be, taking reasonable measures available to it.
