## **When is the Golden Hour? What are Golden Gates?**

## **The zodiac animal I caught came with Oranges. What should I do with it?**

Congratulations! These Oranges are what you need to get Angbaos.

Use the in-game menu and navigate to the God of Fortune. There, you'll be able to see how many Oranges you need to present to the God of Fortune to get an Angbao. If you have enough Oranges to do so, simply tap the 'Present' button to exchange them for an Angbao!

## **Zodiac Quest**

### **What is the Zodiac Quest?**

The Zodiac Quest is a clan-based race that pits the zodiac clans (named after each of the 12 Chinese zodiac animals) against one another.

Players are introduced to the Zodiac Quest once they have completed five attempts to catch zodiac animals. Based on their year of birth, players of the same zodiac sign will automatically form a clan, and will contribute to their clan's overall score by catching zodiac animals as they play the game.

Each clan's score will be tracked in real-time on the leader board as the clans compete to outplay and "out-hunt" one another to achieve specific milestones and win rewards, and ultimately earn the title of "Best Zodiac 2022" at the end of the game period!

## **Angbaos**

### **What are Angbao levels?**

Angbao levels indicate how likely you are to win a big cash reward upon opening the Angbao.

Each Angbao you receive will have a level that is automatically higher than the last. For example, if you previously received a Level 1 Angbao, then the next Angbao you receive will be at Level 2, with a higher chance of containing a bigger cash reward.

You can check which Angbao level you are at by tapping on the "Angbaos collected" section in the in-game menu.

### **How do I collect more Oranges to get more Angbaos?**

By catching zodiac animals! Each time you catch a zodiac animal, there's a chance it may give you Oranges.

You can also collect Oranges by completing challenges in the game. Each challenge has different requirements that need to be fulfilled in order to complete them. Be sure to read them carefully, and bear in mind that only Zodiac animals that are currently caught count towards challenges!

### **When will I receive the Angbao money after redeeming an Angbao?**

All Angbaos must be redeemed before the game ends at 11:59pm on 15 February 2022. After which, the cash value of these Angbaos will be credited to players' DBS PayLah! accounts by 31 March 2022.

Please ensure that the mobile number registered to your game account is the same as the mobile number registered to your DBS PayLah! account. Limited quantities of Angbaos are up for redemption every day, so players are encouraged to redeem their Angbaos as soon as possible!

### **Power-ups**

#### **The zodiac animals I'm looking for are too difficult to find! What can I do?**

Fret not! Players can obtain power-ups to improve their hunts:

- **Lure Letter** helps you attract a specific zodiac animal type or element, giving you more opportunities to catch them.
- **Extension Roll** prevents captured zodiac animals from escaping, so they stay with you for a longer time.
- **Skip Tart** enables you to open closed Gates of Fortune so that you can immediately enter it again to catch another zodiac animal.
- **Slow Nian Gao** slows down the shuffling speed of the hotpots so you can easily keep an eye on which one the zodiac animal is hiding under. It's especially useful when hunting rarer zodiac animals!

#### **How do I get power-ups?**

There are three ways to do so:

- Perform an eligible DBS PayLah! transaction during the campaign period and redeem them via the power-ups page.
